“Hold it” and “quick” are just a handy way to think about the sounds – your school may use other words. Accents vary: follow how your school says it.

The 5-minute routine

- 1 minute: sounds.** Point to tiles on the mat. Your child says the sound, not the name.
- 2 minutes: blending.** Say the sounds, then ask “What’s the word?” s-a-t ... sat.
- 2 minutes: a game or the school book.** Hunt for things that start with today’s sound, or reread the book-bag book.

Little and often beats a long session. Stop while it’s still fun.

First words to blend

at · sat · pat · tap · pin · tin · mad · dad

Hold the sounds you can hold, keep the quick ones quick, then slide them together.

Tricky words

Autumn 1: is · I · the

Autumn 2: put · pull · full · as · and · has · his · her · go · no · to · into · she · push · he · of · we · me · be

Sound out the regular part, then point to the tricky bit. In “is”, the s says /z/.

Worried about your child’s speech? Ask school or your health visitor. Some sounds (like th, r and v) come later for many children.
